STELLAR LED - CANTILEVER UMBRELLA

Leading the way with outdoor lighting and a unique versatile tilt system, the Stellar LED will revolutionise your outdoor area. The Stellar LED will transform the way you use your outdoor space at home, offering full day functionality from daylight shade through to stunning outdoor lighting for entertaining in the evening. The integrated LED lights built into the canopy arms offer a functional yet stunning feature for any backyard space. Constructed to provide complete shade flexibility, this modern design allows the umbrella to be tilted to 7 different angles from left to right, as well as infinite tilt adjustment back towards the mast, giving you increased control over your shade. Ideal for classic kiwi backyards with moderate wind exposure, the high quality Stellar LED will provide you with many years of outdoor entertaining.

ACCESSORIES

COVER BAG

What better way to protect your Paraflex sun umbrella than by using a protective cover. Easy to use and will prolong the life of your umbrella by many years.

FREESTANDING BASE

Freestanding 85cm x 85cm base with aluminium cover. Weighs approx. 230kg with 12 x pavers added, (40x40x5cm). Pavers not included.

CANOPY COLOURS

Shade7 uses premium quality 100% solution-dyed polyester fabric from O'bravia® for standard colours in the Stellar LED umbrella range. O'bravia® fabrics come with a 3 year warranty against fading and rot. These fabrics are extremely colour fast, durable and water resistant. It also has the highest possible UV protection rating of UPF 50+ according to NZ and Australian standards, cutting out the maximum amount of harmful UV light for excellent sun protection.

CHARCOAL TWEED

Please contact us to check colour availability. Fabric colour may vary slightly from printed swatch shown.
