

Riviera[®]

New Zealand's premium cantilever umbrella

Riviera[®] Premium

SHADE7
premium outdoor living

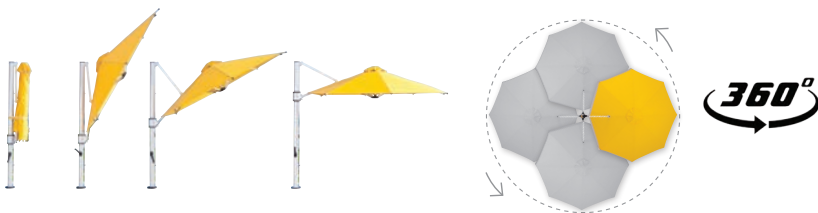

Experience world-class, resort
quality shade, under the finest
cantilever umbrella available.

Riviera® Premium

This superior, stunning cantilever umbrella is the ultimate choice for outdoor living and entertaining in both residential and commercial settings. The Riviera® combines style and performance engineering to deliver elegance, strength, and durability in two versatile models. The Riviera® Premium features beautiful anodised aluminium and marine-grade stainless steel components, while the Riviera® Classic is built tough with commercial-grade fibreglass arms and reinforced nylon components. Both models offer flexible tilting adjustment and 360° rotation, providing generous, adaptable shade all day long.

A legacy of innovation

The Riviera® cantilever umbrella is designed and engineered by Kiwis for New Zealand's harsh coastal environments and conditions. Since 1999, we've been designing and manufacturing premium-quality cantilever umbrellas, and over the last 25+ years we've continued to develop, refine, and innovate with one goal: to create New Zealand's best cantilever umbrella.

Riviera® Premium

- 'D-Max' ultra-strong 35x20mm anodised aluminium arms
- Upgraded 316 stainless steel and aluminium winder handle
- Upgraded matte aluminium tilt knobs and trims
- Designer matte anodised aluminium hubs
- Matte Silver or Matte Black frame finishes
- Four umbrella sizes to choose from
- Wind rated up to 65kph for peace-of-mind
- 5-year frame warranty* and 10-year fabric warranty*
- 316 stainless steel spigot fitting
- Marine-grade 20-micron anodised aluminium frame

Riviera® Classic

- Heavy-duty 20mm diameter commercial fibreglass arms
- Reinforced nylon winder handle
- Reinforced nylon tilt knobs and trims
- Reinforced nylon hubs
- Matte Silver frame finishes
- Two umbrella sizes to choose from
- Wind rated up to 65kph for peace-of-mind
- 5-year frame warranty* and 10-year fabric warranty*
- 316 stainless steel spigot fitting
- Marine-grade 20-micron anodised aluminium frame

Built tough for commercial locations

The Riviera® cantilever umbrella is the strongest, largest and most luxurious cantilever umbrella we have ever developed. Perfect for commercial environments where quality and durability are essential. The Riviera® graces premium resorts, hotels and restaurants worldwide.

Specifically designed and engineered to withstand the harsh and windy weather conditions of New Zealand and the Pacific Islands, the Riviera® is both aesthetically stunning and exceptionally high-performing. Its robust construction ensures longevity, making it the best choice for challenging environments.

Matte Black Frame

Matte Silver Frame

*3yr warranty for commercial use

*5yr warranty for commercial use

Riviera® features

Strength & beauty + quality components

Both models feature quality materials - the Riviera® Premium with anodised aluminium arms and stainless steel accents, and the Riviera® Classic with fibreglass arms and reinforced nylon components for durability.

Generous canopy tilt adjustment

The infinite tilt function ensures protection even against low-angling sun. Install the Riviera® with its back to the early or late sun, slide the canopy down and enjoy full use of your outdoor space.

360° rotation for all day shade

360° rotation and 24 locking positions enable you to easily rotate the umbrella to deliver consistent shade and UV protection as the sun moves throughout the day.

Made to last – premium marine-grade materials

Both models are built to last in harsh coastal conditions, with a marine-grade anodised aluminium frame. Materials are carefully chosen for strength, durability, and longevity.

Wind rated up to 65kph

Premium engineering and construction. Designed by Kiwis for NZ coastal conditions, the Riviera® will give you quality shade and enhance your outdoor living experience for many years.

Optional accessories

Canopy stabiliser kit – silver/black

Uniquely designed stabiliser arms that increase the umbrella's stability for commercial environments and exposed locations.

Cover Bag – Black/Charcoal/Off White

Highly recommended to protect your umbrella and help extend the life of the canopy fabric.

Designer finial

Create a French Riviera design flair with a polished stainless steel finial.

Clip-on LED smart light

USB rechargeable LED light with motion and light sensors. Great for night-time entertaining.

Installation options

Your Riviera® umbrella comes to you fully assembled. There are three different installation options. You can install your Riviera® onto a wooden/composite deck, a concrete patio or install into the ground using an in-ground kit. Or you can choose to install with our Freestanding Cantilever Base with Internal Wheels, or the Freestanding Half Base.

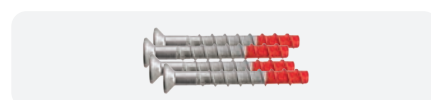

In-ground installation fitting

For installation into a patio or the ground.

Deck installation kit

Set of bolts required for deck installation. *(A base plate is required for any composite deck or installation of a 4.5m Octagonal Riviera®.)*

Concrete patio installation kit

Set of concrete screws required for installation. *(A base plate will be required for the large 4.5m Octagonal Riviera®.)*

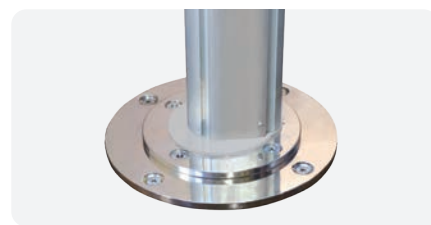

Freestanding cantilever base with internal wheels – silver/black

A strong, durable cantilever umbrella freestanding base with hidden internal wheels and adjustable locking feet. Weighs up to 180kg when fully loaded with gravel.

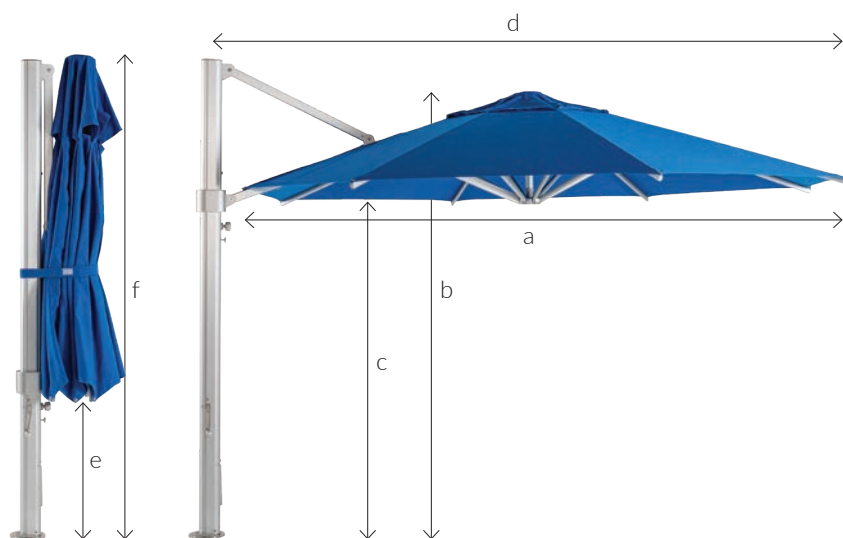

Freestanding half base

This clever freestanding base design provides more usable space under the umbrella. Weighs 230kg once filled with 8 x 50x50cm pavers. NZ pat app no. 768055

Stainless steel base plate

An optional 280mm stainless steel base plate upgrades the strength of any deck or concrete patio installation. It is recommended to use a base plate on any timber deck or tiled patio installation. *(A base plate is required for any composite deck or installation of a 4.5m Octagonal Riviera®.)*

European made acrylic canvas

Our premium solution-dyed acrylic canvas comes with a 10 year warranty against fading. It has the best available colour fastness rating of 7-8 out of 8⁴. It also has the highest possible rating of UPF 80, cutting out the maximum amount of harmful UV light for excellent sun protection.

Specifications & technical information

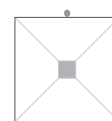

3.5m Octagonal

4m Octagonal

4.5m Octagonal
