OCEANWEAVE
premium outdoor furniture

OceanWeave outdoor furniture was founded in 2008 out of a desire to create premium quality outdoor furniture at a price that represents the best value for money.

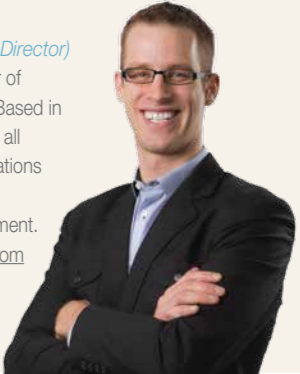

Our customers take confidence in the fact that our rattan outdoor furniture is crafted using the finest materials available to withstand the intense demands of numerous commercial environments throughout the world. OceanWeave furniture can be found in the searing 40°C+ heat of Dubai and the Middle East, the tough weather conditions and high UV in New Zealand and Australia and right through the cyclone prone holiday destinations throughout the Pacific Islands.

OceanWeave outdoor furniture is fast becoming a market leader in the section of the market that want and require the very highest quality outdoor furniture available but do not want to pay an unreasonable premium for a European label.

OceanWeave furniture is product division of Shade7 Ltd which is the largest sun umbrella supplier to both the residential and commercial market in NZ and through the Pacific Islands.

Michael Pearce *(Managing Director)*

Michael is the managing director of OceanWeave and Shade7 Ltd. Based in Auckland, NZ, Michael oversees all domestic and international operations of the business including sales, production and project management.

OCEANWEAVE QUALITY

Rehau Weaving (option1)

Hand-woven using RAUCORD weaving material from German company REHAU. RAUCORD is stress tested in temperatures ranging from -10°C up to 50°C without any lasting changes to the weaving and is maintenance free, durable, UV resistant and weatherproof

Viro Weaving (option 2)

Viro fibres are specifically designed and engineered for outdoor use. UV and weather tested Viro fibres won't fade or split and clean-up easily with mild soap & water. Made from a base of HDPE - a non-toxic material that is 100% recyclable. Viro Fibre is the greener solution.

Sunbrella Fabrics

Sunbrella is the global market leader for outdoor fabric and offers a 5 year warranty against fade, rot and material breakdown. Sunbrella fabrics are colourfast, water resistant, stain resistant and washable.

Quick dry foam technology

No one likes wet cushions! That's why we use quick dry foam that allows water to drain out of the cushion quickly and is also resistant to mould growth.

Heavy duty aluminium frames

OceanWeave furniture uses marine grade 1.6-2.0mm powder coated aluminium framing. Designed for heavy commercial use - these frames will not rust or bend.

3 year warranty

You are covered by a comprehensive back-to-base 3 year warranty on furniture and cushions. The warranty covers faulty workmanship and failure of materials under normal conditions of use and maintenance. Warranty excludes glass and normal wear and tear.

WHY OCEANWEAVE IS IDEAL FOR YOUR RESORT OR HOTEL

Made to last in commercial environments

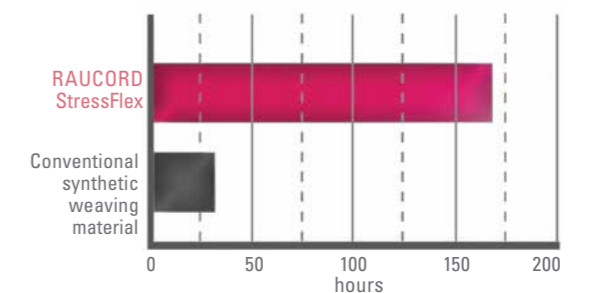

Our furniture is woven using German Rehau "RAUCORD" or Viro Fibre, both are made to last. Our furniture is tested to stay intact after 50,000 cycles of load. This is equivalent to seven years of commercial use (based on 20 people sitting on the same chair per day). This is ideal for outdoor furniture used in busy restaurants and resort.

Proven in any climate

Our furniture has been tested to endure both hot and cold climates. It can hold a load of 110kg on a woven chair for six hours at -10°C or up to four hours at 50°C without any lasting changes to the weaving. Now you can use and leave your furniture outside all year round in any weather.

No. of hours passed in REHAU Endurance Test

Strong and hard-wearing – up to 5x more durable

RAUCORD StressFlex offers up to 5x higher stress resistance than conventional synthetic weaving materials. Our state-of-the-art Stress Cracking Resistance Test shows that RAUCORD StressFlex provides superior durability:
